Inkjet Machine Type 992

Direct Printing on Tubes

The **Machine 992**, a long-lived result of research and development, is an innovative and competitive solution for Digital Full Colors direct printing on tubes. Capable to decorate in process color cosmetic tubes, the machine 992 answers expectations in term of change over time reduction and optimization of printing quality. Its conception gives a flexibility of unequalled use in this domain.

FLEXIBILITY

- Better reactivity
- Fast and easy change of production
- Direct printing from file to substrate
- Artwork change within few seconds
- Print on demand reducing the need of costly inventories
- Auto Increment
